This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. In Understanding Human Differences, readers are introduced to sound research grounded in various behavioral and social sciences while featuring a stimulating inquiry approach to support reflection on issues of critical importance in multicultural education in today's society. The conceptual framework of the book focuses on three areas: culture, the individual, and institutions. Readers are encouraged to examine individual concerns; understand the cultural/historical contexts; and explore such areas as racism, classism, sexism, heterosexism, and ableism. Included is a focus on changes already achieved or that need to be implemented in schools and other areas of society to create a more just society.
